This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. PREFACE.

THE ten parts which this volume comprises have already been issued separately, and now appear in a collective form with a General Index. Since the publication of the various parts the information contained in them has been subjected to careful revision, and in some cases the tables have been entirely recast. It is possible, however, that some errors may still remain uncorrected; if there be any such which come under attention information concerning their nature and position would be gladly received.

The following pages contain chiefly matter in a tabular form, and should therefore be read in conjunction with the "Wealth and Progress of New South Wales," an annual publication, based for the most part on the figures found in this volume, and designed, as its title shows, to illustrate the resources of this Colony.

Marine Board Transactions.—In addition to the above there were four vessels—the Parnel, Theophne, Africa, and Friendship—lost at sea. During 1892 nineteen inquiries were held, of which fourteen were heard by the Board at Sydney, and five by the local Board at Newcastle. Thirteen masters were examined for loss of vessels, twelve of whom were exonerated, and one had his certificate suspended for three months. During the same period three inquiries relating to collisions were held. One master was censured, and the other two had their certificates suspended.

Harbour and Light Rates.—Every registered vessel is subject to a half-yearly rate of 4d. per ton on the net tonnage. Men-of-war, cable-laying vessels, vessels in distress, whalers, and yachts are exempt from dues. The amount collected during 1892 was £20,610.

Pilotage.—The same exemptions obtain for pilotage, except vessels in distress, which are charged half rates. Captains of vessels of any nationality who have obtained Exemption Certificates are not liable for pilot dues. A minimum pilotage charge of £2 10s. is made for the ports of Sydney and Newcastle, and £1 5s. for other coastal ports, for vessels of 300 tons and under, and 75 tons and under, respectively. An additional 4d. per ton on the net register is charged on shipping over these limits. The amount collected during 1892 for pilotage was £38,426, and for removal dues £4,474, giving a total of £42,900.

The Marine Board of New South Wales was incorporated under the Navigation Act of 1871 (35 Vic. No. Amending Acts, however, have been attached since that date. The Board consists of seven members, four of wh including the President, are appointed by the Government, and three are elected by the registered owners of shipping not less than 100 tons. For the position of an elective Warden it is necessary to possess the qualification of being a regist owner of not less than 250 tons of shipping. The elections take place triannually, the first one held being in 1872. Provi has been made by the Government for the creation of local Marine Boards under the superintendence of the Marine Board New South Wales, one of which has been established for the Port of Newcastle, but the Marine Board of New South Wa has direct control wherever local Boards are not in existence. The Board is invested with power to carry out the relating to steam navigation, and also to superintend all matters in connection with the issue, suspension, or cancella of certificates of competency and service, the framing of harbour regulations, the preservation of ports, harbours, rivers, the licensing, appointment, and removal of pilots, the regulation of lighthouses, lights, and river marks, moorings, Ha to lighters, waterman's, steam ferry, and other boats, harbour and river steamers, &c. Under the authority of Wollongong Harbour Trust Act, 1889 (53 Vic. No. 19), the management and control of the port of Wollongong has b vested in twelve Commissioners, who act independently of any other body.

Act relating to Merchant Seamen.—The Seamen's Laws Consolidation Act of 1864 (27 Vic. No. 13) applies only to vessels registered in the Colony; vessels arriving in New South Wales registered elsewhere are subject to the Imperial Merchant Shipping Act of 1854 (17 and 18 Vic., cap. 104). Shipping Offices are established at Sydney and Newcastle, the business at the other ports being undertaken by the Local Customs Officers. The Local Act provides for the protection and discipline of the seamen, provision being also made for the enforcement of various penalties for breaches of the Act. It also defines the mode of procedure between master and seamen as regards wages and provisions, and requires the shipmaster to notify to the Shipping Office engagements and discharges of seamen.

Adjustment of Returns.—The figures relating to domestic and foreign exports have been adjusted through the gold returns being amended. In those years where there is an excess of Export over Import of Gold, the difference has been accepted as the domestic export; when opposite conditions obtain the whole of the gold has been classed as other than domestic produce, no credit being taken for the manufacture of the gold into coin at the Sydney Mint.

Drawback.—A drawback of the full duty paid on importation may be allowed on goods if exported in original packages as imported, provided that the Collector of Customs is satisfied that in all respects the goods are in the same condition and of the same value as when they were entered for duty on importation. A drawback of duties may be allowed on medicines and toilet preparations containing spirit, but not on tiuctures, perfumed spirits, Florida water, and bay rum.

Tariff.—The Import Tariff of late years has undergone many revisions. In 1884 the duties were slightly in on Opium, Tobacco, and Cigars. Cigarettes and stearine were also added to the list of dutiable articles. Durin considerable additions were made to the specific list while the ad valorem duties after having been in ab since 1873 were re-established. In the following year, however, the tariff was considerably modified and the ad v duties again abolished. At the end of 1891 many additions were made to the number of dutiable articles and ad v duties were again imposed.

SAILING VESSELS.—Fares by sailing vessels are in nearly every instance a matter of private arrangement between the Captain of the vessel and the intending passenger; but the number of such passengers is becoming smaller from year to year, owing to the great decrease of the rates of steamer fares. Fares to London are, however, given as £35 to £42 first class and £20 to £25 second class, and to San Francisco as £30 first class and £15 to £20 second class.

Estimated Deficiency of Consolidated Revenue Fund at close of the year 1892..	.....	**1,299,542**

Public Accounts, 1893.—The position of the Consolidated Revenue Account at the close of the year 1893 is briefly ained as follows:—In addition to the estimated deficiency, £1,299,542, which accumulated during the period 1887-92, e was a liability of £1,902,884 on the Deficiency Debt of 1886 and previous years, which, added to the former figures, s a total deficiency of £3,202,426 at the close of 1892. It is estimated that the accounts of 1893 will show an excess of ents over receipts amounting to £201,239, which, added to the Deficiency Debt of 1892 and previous years, gives an mulated deficiency at the end of 1893 of £3,403,665, which it is proposed to liquidate by annual instalments of £200,000. t is expected that the actual deficiency for 1893 will be much less than that estimated (£201,239.)

ccumulated Surplus.—At the end of 1877 the Accumulated Surplus, after all Outstanding Liabilities up to that been met, amounted to £2,509,270. The Revenue for 1878, 1879, and 1880, was not sufficient to meet the money ated and spent in those years, so that the balance at close of 1880, after all liabilities had been met, was reduced 6,329. The surpluses of 1881 and 1882 however increased the fund to £4,423,975 at the end of the latter year. 1882 and 1885 considerable sums were spent out of the Accumulated Surplus on specific appropriations and other-h the result that this fund became practically exhausted at the end of 1885. As late however as 1890 small payments de from the accumulated surplus, but for liabilities contracted under the Appropriation Acts of 1883 and former Until 1883 the Government had, therefore, a reserve fund to meet any revenue deficiency arising, but from 1883 no assistance could be obtained from this source.

** The amounts given in this column represent the total expenditure of each year to 1892, irrespective of the when payments were made. During 1892, £888,887 were expended on outstanding liabilities of 1888 and the succeeding years. The accounts of these years have therefore been adjusted to date. All outstanding liabilities ch year up to 1887 have been wiped off, and the expenditure shown for each year to that date represents practically otal payments from Consolidated Revenue, other than from Accumulated Surplus Revenue, towards the cost of the administration for each period.

¶ The amounts over-raised under these three Acts, viz., £445, £15,834, and £10,414, respectively, were transferred to the credit of the Consolidated Revenue Fund.

§ The amount short-raised under this Act, viz., £175,839, has been made good from the Consolidated Revenue Fund.

† Taken over by the Government in 1888.

†† Taken over by the Government in 1890.

‡ In the statement published by the Treasury, the gross proceeds of loans prior to 35 Vic. No. 5 are added to the net proceeds of the loans, inclusive of and subsequent to 35 Vic. No. 5; these figures differ, therefore, from those shown in the Public Accounts.

** Of this sum Treasury Bills, Bonds, and Stock to the amount of £4,967,033 were raised in Sydney (£2,250,000 Treasury Bills); the balance £49,506,400, was raised in London (see table No. 17).

First Issue Inscribed Stock.—From 1842 to 1883 it was the general practice to raise loan moneys under the [illegible] debenture bonds. In the latter year, however, Act 46 Vic. No. 12 was passed with the object of providing for the issue inscription of stock, and from that date the system of raising loans by debentures was abolished. The first loan floated the new conditions was in 1883; but the Act coming into force shortly after the negotiation of the £2,000,000 Debentures of 1882 the holders of the scrip had the option of exchanging the bonds for inscribed stock, a privilege which was availed of to the extent of £1,186,300. The charges annually made by the Bank of England for the inscription and management of which includes the payment of the half-yearly dividends, are £600 per million for the first ten millions, £550 for the five, and £500 per million for all subsequent amounts. The £5,500,000 loan issued in 1884 was the first loan negotiated and issued by the Bank of England. Prior to that date the Bank of New South Wales negotiated, London Institution inscribed.

* Year of the inauguration of responsible Government. It is the practice of the Treasury, when establishing th amount of the Public Debt at the close of the year, to take into consideration only the amount of Stock brought to accoun during the year. This does not necessarily include the whole of the Stock sold during that period. In the foregoing Retur the total amount of Stock sold during the year has been debited to the accounts of that year, irrespective whether it wa brought to account in the year or after that date. The foregoing Returns, therefore, differ from those of the Treasury.

First Issue Inscribed Stock.—From 1842 to 1883 it was the general practice to raise loan moneys under the fo debenture bonds. In the latter year, however, Act 46 Vic. No. 12 was passed with the object of providing for the iss inscription of stock, and from that date the system of raising loans by debentures was abolished. The first loan floated the new conditions was in 1883; but the Act coming into force shortly after the negotiation of the £2,000,000 Debentur of 1882 the holders of the scrip had the option of exchanging the bonds for inscribed stock, a privilege which was availe the extent of £1,186,300. The charges annually made by the Bank of England for the inscription and management of which includes the payment of the half-yearly dividends, are £600 per million for the first ten millions, £550 for th five, and £500 per million for all subsequent amounts. The £5,500,000 loan issued in 1884 was the first inscribed negotiated and issued by the Bank of England. Prior to that date the Bank of New South Wales negotiated a London Institution inscribed.

* The deposits shown are overstated, but the error is small compared with the volume of figures given. The ba balance-sheets do not in many instances clearly define the amount of deposits, other small items being included. T excess in those given for New South Wales only probably amounts to about two millions, and for the total about millions. The information given in Table No. 5, which was obtained under the Census and Industrial Returns Act, gi the correct figures of New South Wales deposits for 1891-92, viz., £33,471,931. ** Mercantile Bank incorporated w Commercial Bank of Australia. † Bank of South Australia incorporated with the Union Bank of Australia.

Return per cent. on Investments given in detail on Balance Sheet.

The average rate of Interest per cent. realized during 1892:—

On Mortgage was	5·66	per annum.
On Debentures was	5·15	"
On Bank Deposits was	4·96	"
Deposit in Colonial Treasury	4·56	"
The **general average** rate on Investments was	5·12	"

Deposits.—Sums to any amount from one shilling may be deposited in the Savings Bank of N.S.W., but with the exception of Friendly Societies and Charitable Institutions Funds, deposits exceeding £200 do not bear interest above that amount. Prior to April, 1889, the limit was fixed at £100. The rate of interest allowed on accounts closed during the year was 4 per cent., and on accounts remaining open on 31st December, 5 per cent.

The Savings Bank of New South Wales was established under Act 2 William IV No. 13, in 1832, and although several amending Acts have been passed since that date, the old Act creating this institution has not been superseded.

KEPT IN nds, Shillings, and Pence.	The Weights in use are the Standard Imperial Weights of Great Britain, as regulated by the Act of Council 16 Victoria No. 34. By this Act, Gold, Silver, Platina, Diamonds, or other Precious Stones, are to be sold by Troy Weight, and Drugs, when sold by retail, may be sold by Apothecaries' Weight.	The Measures in use are the Standard Imperial Measures of Great Britain, as regulated by the Act of Council 16 Victoria No. 34.

Gold coins are legal tender for a payment of any amount, Silver for an amount not exceeding forty shillings, and Bronze for sums not exceeding one shilling.

The "Bank Issue Act of 1893" was assented to on 3rd May. Under its provisions the Government could pro- the notes of any Bank operating in New South Wales legal tender for a period of twelve months. The Act was pro- d to be in operation for the six months ending the 14th November, 1893, the Government, however, did not consider able to extend the time beyond that date.

The "Bank Note Bill of 1893" has been virtually agreed to by both Houses of Parliament as it only awaits the ent of the Legislative Assembly to a short amendment made by the other branch of the Legislature. The Bill es that the notes of thirteen banks mentioned shall be legal tender in New South Wales, except at the head offices in . The Act shall be in operation for eighteen months after date of passing. No bank shall issue, reissue, or have in tion at any one time in this Colony notes to an amount in excess of one-third of the paid-up capital of the bank (such t not in any case being greater than one-third of two million pounds), together with the value of the coin and gold held by the bank in the Colony, and no bank shall issue notes to an amount in excess of one million pounds.

Branches of Royal Mint.—The Sydney and Melbourne Branches of the Royal Mint are the only ones in ex the British Possessions, the Mints at Calcutta and Bombay being established on a different basis. The Sydney Br opened on 14th May, 1855, and that of Melbourne on 12th June, 1872. Colonial gold coins were declared, under A No. 39, to be legal tender for payment of any amount, and under a clause of the same Act silver to the amount o made legal tender.

Bankruptcy Act.—The first Insolvency Act (5 Vic. No. 17) came into operation in February, 1842, although in nd again in 1838, short Acts were passed for the relief of debtors unable to meet their obligations. In December, he "Bankruptcy Act" (51 Vic. No. 19) was assented to, which superseded the old Insolvency Act. Under this Act w relating to Insolvency and Bankruptcy was amended and consolidated. It came into operation on 1st January, nd an amendment (52 Vic. No. 11) was attached in July of the same year. The provisions of the statute are of a tringent nature than those of the previous Act. The law is administered by a Judge in Bankruptcy, who acts in of the Chief Commissioner of Insolvent Estates appointed under the old Act.

Probate.—The figures from the Equity Court and Stamp Duties Department relating to transactions in the estate of deceased persons do not agree. The Court returns the gross value of the estates, and includes those estates which, after investigation, are found not to be subject to duty. The number of petitions is also swollen by probates on some estates being taken out a second time. The amount given by the Stamp Duties Department represents the net value of the estates, and only those estates subject to duty appear in the returns. The Probate Act of 1890 (54 Vic. No. 25) was passed in order to consolidate and amend the law relating to Probate and Letters of Administration, and to the succession to Real Estate in cases of Intestacy, and for the preservation and management of the estates of deceased persons. The Act was amended by Act 56 Vic. No. 30, which became law on the 13th June, 1893. Greater facilities are now given for the issue of Probates and Letters of Administration in small estates.

Stamp Duties Act.—The first Stamp Duties Act (29 Vic. No. 6) came into operation on 1st July, 1865, and remained in force under a proviso of the Act till 31st December, 1868; in that year, however, and also in the three following years, "Continuing Acts" were passed, with an Amending Act in 1872. The Act of 1871 provided that the Stamp Duties should remain in force till 31st December, 1874, after which date the duties lapsed by effluxion of time. From 1874 to 1880 no Stamp Duties Act was in force. On the latter date, however, an Act (44 Vic. No. 5) was passed providing for the imposition of duties from the 1st July of the same year. In 1886 an amendment was attached, under Act 50 Vic. No. 10, which came into operation on 31st August of that year. Under the provisions of the Probate Act of 1890, Amendment Act (56 Vic. No. 30) passed in 1893, no stamp duty can be levied on estates under the value of £200.

rens Act.—The Real Property Act (commonly known as "Torrens Act") was passed in 1862. In 1873 the Act was nended, and a further amendment was made in 1878. In the last amendment an important clause was inserted, he registered owners of the land are protected from the operation of the Statute of Limitations, and therefore the liable to be taken from them by any length of adverse possession. To indemnify the Government for compensating no, through error, may have been deprived of their properties, an Assurance Fund has been created by a contri- one half-penny in the pound being levied on all property brought under the Act. This Fund at the end of 1892 to £117,629.

Deeds registration.—Under Act 11 Vic. No. 4, passed in 1847, any person making a *bonâ fide* advance t proprietor of sheep, on condition of receiving in payment, or as security, the wool of the next ensuing clip, and registering the agreement, is entitled to the whole of the wool mentioned in the agreement. Mortgages on live s sheep, cattle, and horses, are valid whether the money secured by the mortgage be payable presently or not notwithstanding that the stock remain in the possession of the mortgagor.

Under Act 26 Vic. No. 10.

(Liens on Growing Crops.)

Liens on Growing Crops—		
Number of Liens		1,416
Amount of consideration		£130,155

An Act to legalise preferable liens on yearly crops (26 Vic. No. 10) was passed on the 9th December, 1862. U provisions liens on agricultural and horticultural produce may be made, and are valid without parting with the po thereof.

NOTE.—In many instances the amounts lent upon mortgage by the banks are not stated, but simply the words able consideration" or "cash credit" inserted in the deed. As this occurs frequently when the properties mortga evidently of great value, the absence of the amounts must materially affect the returns, and, as a consequence, the a under the head of "reconveyances" are necessarily incomplete.

When any sum has been secured, both by a Lien on the Wool and by Mortgage of the Sheep, the amount is i under the head of Mortgages only. Thus in 1892, the gross amount lent on Liens was £1,818,566; but from this h deducted the sum of £129,905, secured both by Lien on the Wool and Mortgage on the Sheep, and included in the f the last column, so that the net amount lent on Lien was £1,688,661.

* Miscellaneous Deeds embrace all documents where valuable consideration is not stated, such as deeds of gift, ments for benefit of creditors, settlements, powers of attorney, notifications of resumptions, conditional purchas nominal consideration, writs of execution, &c., &c.

† In addition to the above there were 31 discharges of Wool Liens, representing £10,179, and 16 tran mortgages.

‡ There were also registered 25 transfers of mortgages, 1 agreement, 3 deeds of confirmation, and 2 further ass in which no amounts were specified.

† Jam-making and Fruit-canning combined in 1888 and 1889. ‡ Boots and Shoes: Factories with less than five hands included. § Clothing: Factories with less than five hands not included. ‖ Agricultural implement manufactories not included under any of these heads. ¶ Iron and Brass Foundries, and Machinery and Engineering are taken together, for though efforts have been made each year to distribute them into their separate divisions, such distribution has been only partially successful. ** Accurate information not available prior to 1886. †† Saddlery: Only larger repairing shops included in 1886–92, but all included prior to 1886.

NOTE.—When more than one kind of work is carried on in one establishment, it has frequently been found impossible to distinguish the number of hands engaged in the various industries; in such cases the total has been credited to the principal industry.

§ Recoverable by levy and distress, where no proceedings have been taken after return to distress warrant.
† **Whipping.**—Under the Criminal Law Amendment Act (46 Vic. No. 17), provision has been made for whipping additional punishment, chiefly for offences classed as wanton and unprovoked assaults and indecent exposure. The adjudicating must, however, consist of two or more Justices, one of whom shall be a Police or Stipendiary Magistrate the Metropolitan District the cases are decided before two Stipendiary Magistrates.

Magistrates' Courts.—The jurisdiction of Magistrates is limited, except in a few special cases, to offences in a penalty of six months imprisonment and under, although the Magistrates have power to enforce cumulative sentences to the maximum limit on prisoners convicted on more than one charge. All persons, except those committed by S Court Judges and Coroners, who are entered on the charge sheet of the police must be brought before Magistrates to them summarily dealt with or committed to a higher court.

* For full particulars of each Gaol, see Table No. 32. † Closed on 3rd September, 1892.
‡ Of this number, 2,484 had been tried, 129 were awaiting trial, and 9 were confined in the gaol as debtors.

Entries and Discharges.—The figures showing the Entries and Discharges represent the transactions of each gaol during the year. As persons transferred from one gaol to another are recorded at each gaol, and the aggregate of which would misrepresent the criminal transactions of the year, the figures have not been established.

District Courts.—Courts have been established for the trial of civil causes where the value in dispute does not exceed 0. They are presided over by Judges specially appointed for the purpose, who also perform the duties of Chairmen Quarter Sessions. District Courts sit ten months during the year in the metropolis, and are held twice a year in all portant country towns. The Judge is not ordinarily assisted by a jury, but in cases where the amount in dispute eeds £20, either of the parties may, by giving notice to the Registrar of the Court, have a jury summoned. On estions of law an appeal lies to the Supreme Court.

Divorce.—Prior to the passing of the Matrimonial Causes Act of 1873 (36 Vic. No. 9), the Supreme Court of N.S.W. had no jurisdiction in divorce. Several amendments have been attached to the original Act since that date, the two last—55 Vic. No. 37 and 56 Vic. No. 36—considerably amended and extended the law of divorce. It may be mentioned that Act 55 Vic. No. 37, which was assented to on the 9th May, 1892, did not come into force, owing to an informality, till the 6th August of that year. The chief grounds for divorce under the old Act were adultery since marriage on the part of the wife and adultery and cruelty on the part of the husband. In addition to the foregoing causes, petitions for divorce can now be granted under certain conditions on the following grounds, viz. :—Desertion, habitual drunkenness with cruelty or neglect, &c., in gaol under conviction, and violent assaults.

* **Aborigines.**—The Aboriginal population was not included in the Census of 1861, while in 1871 and 1881 the wandering tribes were passed over and only those who were civilized or in communication with Europeans were enumerated. It is probable that the numbers for these years were, approximately,—in 1861, 15,000; in 1871, 12,000; and in 1881, 10,000.

Naturalisation.—The first Act empowering the Governor to grant letters of naturalisation in New South was assented to in 1828 (9 Geo. IV, No. 6). The next important Act passed was 11 Vic., No. 39, as amended by No. 8. This was repealed in 1876 in favour of the Act now in force, 39 Vic., No. 19. A clause in the Chinese Imm Regulation and Restriction Act of 1861 (25 Vic., No. 3) provided that certificates of naturalisation should not be to Chinese. The Act was, however, repealed on the 20 November, 1867, but since the date of the passing of the Restriction and Regulation Act of 1888 (52 Vic., No. 4), no certificates of naturalisation can be issued to Chinese South Wales. Certificates of naturalisation granted in other Colonies do not confer the right of British citizen New South Wales.

Education.—The Public Instruction Act (43 Vic. No. 23), which came into force on the 1st May, 1880, placed Educational system under the Minister of Public Instruction, and provided for the abolition of State Aid to Deno national Schools. The Act provides that the instruction imparted shall be absolutely unsectarian, although sect instruction shall include general religious teaching as distinguished from dogmatical or polemical theology. Teacher religious persuasions are allowed under conditions to visit and impart instruction to the scholars. It is compuls that all children between the ages of 6 and 14 years should attend school at least 70 days during the half year. Fee the rate of 3d. per scholar are charged, the maximum being 1s. for one family. Where inability to pay the fees is sho children are admitted free.

High Schools.—The fees at the High Schools have been increased since July, 1893, from 2 to 3 guineas quarter; 60 scholarships are annually awarded by the Department, which entitle the holders to free education three years in a High School.

In addition to the scholarships, 30 full and 20 half bursaries are given, which carry an allowance and f education for three years at a Superior or High School, or at the Sydney Grammar School. Ten State bursar tenable for three years, have also been established in connection with the University.

Under the scholarship and bursary scheme, 98 candidates were successful during the year 1892: 61 obtain scholarships, 31 gaining bursaries for High and Superior schools, and 6 being awarded University bursaries.

State Aid.—Under Act 7 Will. IV, No. 3, passed in the year 1836, State Aid was extended to the different denominations. ous to that date the Church of England was the only one in receipt of it. Only four denominations, however, accepted rivilege accorded, viz., the Church of England, Roman Catholic, Presbyterian, and Wesleyan Methodist. In 1863, under 6 Vic. No. 19, all future grants of public money in aid of public worship were prohibited, and State Aid was confined solely e 152 ministers who were at that date in receipt of stipends. This number, at the end of 1892, was reduced by death or causes to 53. Although no recognition or assistance is given to any religious denomination by the State, a clause in tatute provides that ministers may receive stipends from the Government when acting as chaplains to penal establishments Charitable Institutions. Those ministers who hold positions of this description are not included in the above table.

State Aid.—Under Act 7 Will. IV, No. 3, passed in the year 1836, State Aid was extended to the different denominations. ious to that date the Church of England was the only one in receipt of it. Only four denominations, however, accepted rivilege accorded, viz., the Church of England, Roman Catholic, Presbyterian, and Wesleyan Methodist. In 1863, under 6 Vic. No. 19, all future grants of public money in aid of public worship were prohibited, and State Aid was confined solely e 152 ministers who were at that date in receipt of stipends. This number, at the end of 1892, was reduced by death or causes to 53. Although no recognition or assistance is given to any religious denomination by the State, a clause in tatute provides that ministers may receive stipends from the Government when acting as chaplains to penal establishments Charitable Institutions. Those ministers who hold positions of this description are not included in the above table.

Lunacy.—The Lunacy Act, 42 Vic. No. 7, passed in 1879 as amended by Act 56 Vic. No. 23, provides for the proclamation of Government hospitals for the insane and for the granting of licenses for private houses for the reception of the insane; in addition to which it provides for hospitals for the criminal insane being established. Precautionary measures have been taken to prevent the influx of persons of unsound mind, who, if they became domiciled in the Colony, would be a charge on the public as inmates of hospitals for the insane.

NOTE.—Sydney was incorporated in 1842 (6 Vic. No. 3), which Act was repealed with certain exceptions by 14 Vic. No. 41 passed in 1850; the mayoralty continued till 1853; the Corporation was then dissolved (17 Vic. No. 33), and the Government appointed three City Commissioners, who administered the civic affairs till 1857, at which date the Council was re-established under Act 20 Vic. No. 36, which remained in force till 1879, when it was superseded by the present Act, 43 Vic. No. 3. Sydney being governed under special legislation, the Municipal Act (31 Vic. No. 12) of 1867 and Amending Acts only apply to suburban and country municipalities. Under the provisions of Act 31 Vic. No. 12 the Municipalities were divided into two classes, Boroughs and Municipal Districts. A borough shall, upon its first incorporation, contain an area of not more than 9 square miles, with a population not less than 1,000 inhabitants; a municipal district must not exceed 50 square miles, and shall contain a population of at least 500. The boundaries of each class of division must not overlap.

Additional forms of Local Government.—In addition to the various forms of Local Government, represented in tables 1, 2, and 3, there are the Board of Metropolitan Transit Commissioners and the City of Sydney Improvement Board operating, as their names imply, within the Metropolitan area. The transactions of the former will be found in Part IV. The latter Board held during 1892 seven meetings, condemned eleven buildings, and six references and one appeal were heard. The fees paid to the Board during the same period were £48. There are also Irrigation Trusts in operation at Wentworth, Hay, and Balranald. The Municipal Council of each district has been empowered to act as the Trust.

The Country Towns Water and Sewerage Act (44 Vic. No. 14) was passed in 1880. Under it municipalities outside the area under the control of the Metropolitan and Hunter District Water Supply a Boards are, under certain conditions, entitled to construct, or have constructed for them by Governme water supply and sewerage. The amount expended in construction is advanced by the State, the municip required under the Act to refund the cost by periodical payments, including interest at the rate of 4 per unpaid balances, each annual instalment to be equal to 6 per cent. of the total cost; the first payment to be months after the date of the transfer of the works to the municipality. It is under the consideration of the to alter the conditions of repayment, as the municipalities have not been able to meet their financial oblig State, as defined by the Act.

(*b*) Borough. (*m*) Municipal District.

NOTE.—Under the 164th clause of the "Municipalities Act of 1867" rates are struck on nine-tenths of the fair annual rental of all buildings and cultivated lands, and on 5 per cent. of the capital value of the fee simple of unimproved lands. The general and special rates, taken together, for any municipality must not exceed 2s. in the £ of the assessed value of the ratable property. The "City Rate" of Sydney is also limited to the same amount (exclusive of lighting).

Metropolitan Water Supply.—With the exception of Manly the Municipalities within the Metropolitan district are supplied by the Metropolitan Board of Water Supply and Sewerage. A seperate service exists for the district mentioned.

icipal Loans.—Municipalities omitted from the above table have no outstanding loans. No loans have been he City Council under the authority of the City Corporation Act of 1879, as each Loan Issue has been provided Special Acts. Under the Municipalities Act of 1867, any Municipality may borrow on the credit of any land, tate, or annual revenue, actual or prospective, belonging to the body corporate. The total sum, however, is not the estimated Municipal Revenue for five years. Of the total outstanding indebtedness (£2,119,450) £1,112,050 in Sydney, and the balance, £1,007,400, in London, of which £810,000 was incurred by the City Council.

Patent Act.—The first Patent Act (16 Vic., No. 24) was passed in 1852, but did not come into operation till 1st January, 1854. It was amended in 1879 (42 Vic., No. 27) and again in 1887 (51 Vic., No. 3). Under the provisions of the last-mentioned Act, fees for complete Letters Patent were reduced to £5, and provision was then made for the issue of Certificates of Provisional Protection on payment of a fee of £2, which may, if application be made within twelve months from granting, be converted into a Patent on the payment of an additional £3. The period for which Letters Patent remain in force varies from seven to fourteen years, a Certificate of Provisional Protection can, however, only be granted for twelve months from date of issue. A patent granted in New South Wales only protects the holder or holders within the boundaries of that Colony.

In addition to the above forces there is a cadet force established in connection with the public schools, the total th of the corps at the end of 1892 was 6,221.

The Imperial troops were withdrawn from the Colony in 1870. In the succeeding year, Act 34 Vic. No. 19 (Military ival Forces Regulation Act) was passed, having for its object the establishment of a local permanent force. Under hority the regulation and discipline of the regular forces are administered. The first volunteer force was enrolled , under Act of Council 18 Vic. No. 8, which was repealed in 1867 in favour of the "Volunteer Force Regulation 1 Vic. No. 5 of that year. Under its provisions the forces were re-organised. One of the clauses of the Act pro or the issue of Volunteer Land Orders, which part was repealed under Act 41 Vic. No. 15 in 1878. The forces gain reorganised in the year last mentioned, and in 1885 an additional force of reserves was attached. The Rifle nies, which formed portion of the reserves, were, however, disbanded at the end of 1892.

Fire Brigades.—The "Fire Brigades Act" (47 Vic. No. 3) was passed in 1884. Under its authority a Fire Board for Sydney and suburbs, and twenty-three country Boards have been established. The annual expe Metropolitan Board is contributed in equal amounts by the Government, the Municipalities within the procla and the Fire Insurance Companies holding risks within those Municipal Districts. The Country Boards receiv from the Government and the Municipalities interested, but the Fire Insurance Companies have, in nearly every declined, owing to an ambiguous clause in the Act, to contribute their share as defined by the Act.

The following country Municipalities have been gazetted under the "Fire Brigades Act of 1884":—Albury, Bathurst, Bourke, Braidwood, Deniliquin, Forbes, Glen Innes, Goulburn, Grafton, Hay, Lismore, Moama, Molong Orange, Parkes, Singleton, Tamworth, Temora, Wagga Wagga, West Maitland, Wollongong.

NOTE.—The total rainfall given for each month in Table No. 28 is from the ordinary rain-gauge. The records of ıviometer are affected by the force of the wind and some loss by friction in the recording machine; the total, there- always less than that shown by the rain-gauge. The total rainfall for 1892 according to the previous Table was, inches, while in the above table it appears as 63·180 inches.
